Eligibility criteria:
If you are interested in becoming a NeoResus Facilitator then you will no doubt already be a key resource person within your organization who provides neonatal resuscitation training and/or assessment. This workshop is designed to provide you with the skills, resources and confidence to organize, host and facilitate a NeoResus “First Response” program within your organization.

NeoResus program experience:
As you will ultimately be teaching the NeoResus program, you do need to be familiar with the program and the key concepts.

You should attend a Queensland NeoResus Advanced Workshop before attending a Facilitators workshop. If you have not done so, or wish to discuss this requirement further, please contact joanne.laspina@health.qld.gov.au

Pre-reading:
To prepare for the Facilitators workshop you will need to undertake extensive pre-reading, all of which is web based. You should anticipate needing approximately four to six hours dedicated to pre-reading and familiarizing yourself with the key concepts of the NeoResus program.

NeoResus Web Quiz: (Online competency)
Once you have completed your pre-reading, you will be asked to undertake the NeoResus web quiz to demonstrate your understanding of the key concepts of the online learning material. Successful completion of the NeoResus web quiz is a compulsory pre-requisite for all participants attending a First Response, Advanced Resuscitation or Facilitators workshop.

The web quiz consists of 20 multiple choice questions. You may attempt the quiz as many times as you like, but you must ultimately achieve 80%. The web quiz must be successfully completed at least 7 days before the Facilitators workshop. Participants who have not successfully completed the web quiz will not be eligible to attend the workshop.

National Standards:
Standard 1: Governance3 for Safety and Quality in Health Service Organisations
Standard 11: Appropriate and Effective Care
Criterion 11.5: Implementing systems to ensure that consumers/patients receive appropriate and effective care and services in the appropriate setting.

| 0800 - 0810 | **Registration, Welcome & Introduction**  
              neoResus Program Coordinators and Facilitators |
| 0810 - 0830 | **Just A Routine Operation (DVD) and discussion**                      |
| 0830 - 0900 | **Introduction and Overview**  
              - Aims of the NeoResus program  
              - Pre-reading/pre requisites for attendees  
              - Theoretical component (Lecture)  
              - Practical component (Skills workshop)  
              - Questions and Answers  
              - Key Behavioural Skills |
| 0900 - 0930 | **The role of the neoResus Facilitator**                               |
| 0930 - 1015 | **Facilitating Groups of Adult Learners**                              |
| 1015 - 1030 | **MORNING TEA**                                                         |
| 1030 - 1145 | **Clinical Skills Training**: First Response skills:  
              In groups of 4-5, attendees “train” a small group with feedback  
              from the other participants & facilitator  
              (15 minutes for each participant) |
| 1145 - 1230 | **Introduction to the Simulated Learning Environment (SLE) and Debriefing** |
| 1230 - 1300 | **LUNCH**                                                               |
| 1300 - 1330 | **DVD: Simulated Scenario and Group Discussion on Debriefing**          |
| 1330 - 1400 | **Practical: The How, When, What and Why**  
              of Scenarios and Debriefing:  
              - Allocation of Trainees  
              - The disruptive learner  
              - Scenario Fidelity |
| 1400 - 1600 | **Scenarios from First Response or Advanced Neonatal Resuscitation workshops**  
              - Participants facilitate scenario and practice debriefing skills |
| 1600 - 1630 | **Questions, Evaluation and Summary**                                   |
