Information for this priority area has been identified by:
Cairns Hospital Library & Knowledge Centre

Contact your local Queensland health Library for information on accessing any articles listed in this current awareness service.

For a full list of libraries and their contact details, go the Queensland Health Libraries webpage.

The references have been generated from the latest Ebsco Medline & CINHAL database updates. This list should NOT be considered a complete set of information on Stroke. Queensland Health clinicians and staff are encouraged to utilise the Clinical Knowledge Network (www.ckn.org.au) for more information available in the area or contact their library for assistance with literature searches.

Some references may be available in full text via CKN.

To locate copies of articles:
- Use the URL links within this document to access the database (CTRL and Click on link).
- If full text is available within the database, then a PDF icon or HTML text should display.
- If there is no PDF or HTML link, then use the FIND IT @ CKN link.
- If the item is available via CKN you will find a link for Item held in CKN Full text available from <publisher>. Click on this link to view articles.
- If the item is not available on CKN, then select “Request this item” link and complete details including selecting your local QH Library.
- Can’t find the article you want? Contact your library to request a copy or use the request forms (selecting your local library) at QH Libraries.
- Where there is no link, request article from your local QH library.

Always log off once you have finished viewing an article or database information.
