About the FSEP

The ‘not for profit’ RANZCOG FSEP strives to improve outcomes through a greater appreciation of the physiology and pathophysiology of utero-placental function and fetal heart rate control.

Our face-to-face and multidisciplinary sessions are supported by our assessment tool and are delivered throughout Australia and New Zealand to professionals involved in antenatal and intrapartum care.

The face-to-face sessions are delivered by a team of passionate and dedicated midwives who have extensive clinical and academic qualifications.

Our book, online programs, teaching tools and mobile apps support our face-to-face sessions.

Recommended Pre-Reading

- **RANZCOG FSEP Online Programs** (OFSEP and/or OFSEPplus)
- The **RANZCOG Intrapartum Fetal Surveillance Clinical Guideline**
  PDF copy is available for download from the FSEP and RANZCOG website.

Online Programs

OFSEP is a **FREE** online resource that acts as a pre reading to users and complements our face-to-face FSEP sessions. No login required.

OFSEPplus costs **$39 per certificate.** It has the same modules as OFSEP.

Additional components included:
- Sequential compliance pathway
- Short MCQ quizzes
- Certificate of completion
- Accredited with CPD points
- **Discount available for bulk purchase**

Accreditation

FSEP sessions are accredited for appropriate Continuing Professional Development (CPD) points. Please visit the FSEP website [www.fsep.edu.au](http://www.fsep.edu.au) for the most up-to-date CPD points accredited for each workshop.

Mobile Apps

The FSEP app is a useful educational tool, providing access to the RANZCOG, FSEP and OFSEP websites and current Clinical Guideline.

It provides easy access to the standardised terms, physiological approach and management of the intrapartum CTG.

The app is available for download from [AppStore](http://AppStore) and [Google play](http://Google play).

More information available from [www.fsep.edu.au](http://www.fsep.edu.au)
