Current research funding opportunities

**HOT NORTH Pilot & Translation Project Grants**

HOT NORTH, AU

Pilot and translation projects are available to researchers who wish to build new research capability or translate existing research findings that support the aims of HOT NORTH. The grant is worth up to AUD 36,500 for up to 12 months.

**Maximum award:** AUD 36,500  
**Closing date:** 05 Apr 19

**TAAHC Research Seed Grants**

Tropical Australian Academic Health Centre, AU

The TAAHC Research Seed Grants aim to seed translational research projects that address TAAHC strategic research priorities and that demonstrate the potential to develop into significant programs of work capable of accessing external funding sources. The grant is worth up to AUD 50,000 for up to two years.

**Maximum award:** AUD 50,000  
**Closing date:** 05 Apr 19

**Innovation grant**

Cure Brain Cancer Foundation, AU
This supports new research projects in the field of brain cancer that deviate from existing paradigms and current lines of investigation. The grant is worth up to AUD 200,000 over two years.

**Maximum award:** AUD 200,000  
**Closing date:** 23 Apr 19 (recurring)

### Project grants

**Emergency Medicine Foundation, AU**

These support projects that advance the field of emergency medicine in Queensland and build capacity there. Grants are worth up to AUD 150,000 per year for up to three years.

**Maximum award:** AUD 450,000  
**Closing date:** 26 Apr 19 (recurring)

### Priority impact research award

**Prostate Cancer Foundation of Australia, AU**

This supports practical research with direct implications for men with prostate cancer, their partners and families on issues related to treatment, care and support in the near term. Grants are worth up to AUD 600,000 each for up to three years.

**Maximum award:** AUD 600,000  
**Closing date:** 29 Apr 19 (recurring)

### Autism research programme – clinical translational research award

**US Department of Defense, US**

This supports early-phase, proof-of-principle translational studies with the potential to address current clinical deficits for autism spectrum disorder. Up to two awards are available, worth up to USD 500,000 each over a maximum of three years.

**Maximum award:** USD 500,000  
**Closing date:** 01 May 19 (recurring)
**Vanguard grants**

Heart Foundation of Australia, AU

These support feasibility testing of innovative concepts in biomedical, clinical, public health or health services, including clinical service delivery, which may lead to larger, more rigorous studies in the future. Grants are worth up to AUD 75,000 each for one year.

**Maximum award:** AUD 75,000  
**Closing date:** 19 May 19

---

**Engagement award – capacity building**

Patient-Centered Outcomes Research Institute, US

This supports projects that aim to build a community that is better able to participate in patient-centered outcomes research and comparative clinical effectiveness research, and to serve as channels to disseminate study results. Awards are worth up to USD 250,000 each for a maximum period of two years.

**Maximum award:** USD 250,000  
**Closing date:** 31 May 19 (recurring)

---

**Health investment grants**

Ramaciotti Foundations, AU

These support individuals in universities, public hospitals or institutes undertaking health or medical research with a potential path to clinical application within five years. Up to seven grants are available, each worth up to AUD 150,000.

**Maximum award:** AUD 150,000  
**Closing date:** 31 May 19 (recurring)

---

**Research grant – macular disease**

Macular Disease Foundation Australia, AU

This supports medical, social, low vision or nutritional research aiming to reduce the incidence and impact of macular ideas. Grants are worth between AUD 50,000 and AUD 100,000 per year each for up to three years.

**Maximum award:** AUD 300,000
Closing date: 02 Jun 19

**Behavioural and integrative treatment development programme (R34 clinical trial optional)**

NIH: National Institute on Drug Abuse, US

This supports research on the development and testing of behavioural and integrative treatments for drug and alcohol use, abuse and dependence. Application budgets are limited to USD 450,000 over three years.

**Maximum award:** USD 450,000
**Closing date:** 23 Jul 19
